ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: CATHETER DEVICE

(57) Abstract: Catheter device (2)
for transcutaneous or subcutaneous
administration of substances to a
patient, comprising an outer catheter
(4) provided with one outer catheter
lumen (6) with a distal outer catheter
outflow opening (8) and an inner
catheter (10) provided with at least
one inner catheter lumen (12) with
at least one distal inner catheter outflow
opening (14), said inner catheter is
adapted to be detachably arranged in
said outer catheter lumen. When the
catheter device is adapted to be used
for administration of substances to
a patient, the inner catheter outflow

opening is located proximally said outer catheter outflow opening. The invention also relates to an infusion system including a catheter device and an external pumping device.
